SMC is now offering a HiTech version of our CIS 1 course.

This is an online beginning computer course especially designed by our professors for the deaf and hard of hearing.

Course lectures presented with fully captioned ASL video augmentation.

(FAMILIAR ACTIVITIES ONLINE)

The Computer Categories

Computers are capable of performing an assortment of tasks, but some computers are better suited to certain tasks than others. Categorizing computers is a way of grouping them according to usage, cost, size, and capability.

These categories are: Mainframe computers, Minicomputers, Microcomputers, and Supercomputers.
